"I am a very unique, determined, kind, caring and independent young woman who is moving out of home for the first time. I have cerebral palsy, my muscle tone varies depending on my health and emotional state. I am a full-time wheelchair user, which I drive with head switches.

I have a background in art, design and photography, which alongside creative visual and technical skills has given me a creative set of problem-solving abilities.

My aims for my first year away from home are to settle into a good routine of socialising and finding fulfilling ways to spend my day, such as volunteering and joining clubs.

I have very specific needs and so it is important for my PA to be clean, and to be able to follow my directions well, but we will work together and I will help and guide you with how I want things done.
