- 

**Care experience is not required as full training in our client's particular requirements will be provided.**

### **About our Client**

This young adult is a full-time wheelchair user and relies on the assistance of dedicated caregivers to maintain their independence and well-being. Your responsibilities will encompass every aspect of daily life to ensure their comfort and quality of life.

**As written by them...**

“Hi, I’m a third-year student at UCA Farnham, studying Fine Art. I’m a full-time wheelchair user living in a semi-accessible flat on campus. I’m passionate about art and hope you are someone who could share this passion and knowledge with me.

I would like someone with no preconceived expectation of the several complex disabilities that can affect me in different ways. I have both neurological and physical disabilities, including Functional Neurological Disorder (FND) and a Chiari malformation, which can cause a range of symptoms. Please be aware that I can be prone to seizures and fainting but nothing regularly.

I would want someone who is proactive in keeping things clean and tidy, organising medication and laundry, and helping me with tasks that I need assistance with. I might also require some help overnight if I have trouble regulating my temperature or need assistance to use the bathroom. Sometimes prompting me or asking more than once if I need something or assistance can help. I often struggle asking for help or voicing my needs.”

#### **Qualifications and Requirements:**

- A full and clean UK driving license (Desirable but not essential)
- Open-minded on topics such as politics, religion and relationships
- Excellent sense of humour and ability to not take life too seriously
- Physical fitness, patience, and a caring nature
- Strong communication and listening skills
- Mature and responsible attitude
- Fluent in English
- Clean and tidy appearance

**Application Process:** To apply, please submit a cover letter describing your interests and explaining why you would be a suitable candidate for this unique and rewarding position.

**Training and Development:** Full training in the client's particular needs will be provided, making this an ideal opportunity for individuals without previous care experience. You will also have on-call support from our client coordinator team.
